P R E F A C E.

We herewith present to our patrons and the public the Ninth volume of the **WALTHAM AND WATERTOWN DIRECTORY**, with the hope it may meet every reasonable expectation. It is scarcely necessary to state that the difficulties attending the compilation of such a work are very great, and not to be understood by any one unfamiliar with the business. The re-numbering of the streets in Waltham has filled a great want, and will be greatly appreciated by all; also the new depot recently finished by the Fitchburg Railroad, the removal of the old buildings opposite the depot, and by that means extending the area of the Common to the line of Carter street, the new Bank building and J. W. Parmenter's block, show signs of the city's prosperity; the union of the Gas and Electric Light Company can be noted as another improvement. In Watertown quite a number of dwellings have been built, a Co-operative Bank established, by which persons of moderate resources will be enabled to purchase a home for themselves, and the recent purchase of the "Enterprise," by Mr. Fred G. Barker, who has printed it in the past, from Mr. S. S. Gleason, by whom it was so ably conducted for nine years.

Our sincere thanks are extended to all who have aided our canvassers in the collection of information for the present number.

The following synopsis shows the number of names in the several communities in the last and the present edition :

	1886	1888	Increase
Waltham	6,044	6,870	826
Watertown	2,348	2,506	158

We remain very respectfully,

SIGNALS.

I—One blow for test at 6.50 A. M. and 6.50 P. M.

I—One blow—Time Signal at 12 M.

II—Two blows—will dismiss companies in waiting, and give notice that companies in service have “made up.”

Should an alarm occur from another box before this signal is given, companies answering Second will answer on First; and companies answering on Third will answer on Second.

III—Three blows—second alarm.

III-III—Three blows twice—third alarm.

Ten blows will assemble the Police in case of emergency

II-II—II-II—Twenty-two struck twice at 7.30 A. M., indicates no session of schools in the morning; same signal at 11.45 A. M. indicates no afternoon session.

INSTRUCTION TO KEY-HOLDERS

Upon the discovery of fire, go to the nearest box, open the same, and pull the hook down *once* only; then let go; listen, if the gong in the box strikes; if not, pull again. If you fail the second time, go to the next nearest box and do the same.

Remain at the box, if possible, after giving an alarm, to direct the firemen to the fire.

Do not give an alarm for a fire seen at a distance.

Be *sure* the box is *closed* before leaving it.

If you remove from your house or place of business, return the key to the Chief Engineer.

Key-holders will bear in mind that their key will be “trapped” when used, and will be returned to them by an engineer.

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. * * * The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture.

GOLD MEDAL.

(Signed),

GILMAN KIMBALL, M. D. Chairman."
